I spent hours up until 1am being scolded by 2000 of our supporters of twitter spaces last night for the letter to the mayor. It took a a couple of hours but finally got them on board and understanding. Dagny is trying to draft a press release today, she's being told by some lawyer they they are drafting something between Tamara and the city and they won't tell us what is in it. I need your help to end this process.
